Retta Shealey
Lead Instructor
Women's Safety Education Group

Dear Retta,

On behalf of the members of Curves Holcomb Bridge, I would like to thank you for your wonderful safety seminar. The members in attendance were so very impressed! They learned pertinent information about their personal safety. There were many comments including: "it was the best session on safety I had ever gone to"; "the moves taught were so useful"; "I feel more aware and confident". These comments are a true testimonial to the incredible job you did in the training session. The statistics you shared were especially frightening and gave the women insight to what characteristics will make them an easy target.

I hope that you will be able to return to our Curves and enlighten and educate even more members! Please consider this letter of recommendation to any other group who is interested in your services.

Once again, thank you for your generous donation of time and talent.

Sincerely,

Besty Bunce
Evening Manager
