Athens, Georgia 30612

Ms. Shealey,

On behalf of Gamma Sigma Sigma at the University of Georgia, we would like to sincerely thank you for offering a free Women's Safety Seminar. Not only was your session informative, but it was also entertaining and exciting. Many of our women enjoyed being pulled out of the "audience" for demonstrations.

We would also like to extend our appreciation for your offering of products at the end of the session. Many of us became aware that we need to protect ourselves better from possible attacks.

I will highly recommend you to other groups here on campus. Your enthusiasm and lively personality helped us all realize the importance of women's safety, especially as young, college-aged women.

Thank you again.

Regards,

Linda Mazarella
President
Gamma Sigma Sigma- Chi Chapter
University of Georgia
