Dear Retta:

Thank you for the fantastic safety seminar for our female employees. We have never had such a great turnout for a lunch and learn, and the women left feeling more aware of their surroundings. For days after the seminar numerous employees stopped me and told me how much they appreciated the class. I received comments such as "that was the best seminar I've ever been to", "I learned so much from that class", "now I know what to do in the morning on my way into work", and "I'll never feel unsafe in a parking lot again". The employees thanked me for bringing the class to the hotel and made me look like the star!

On behalf of the staff of the Grand Hyatt Atlanta, I would like to send you my appreciation for the wonderful seminar.

Thank you,

Julie Zambon
