Dear Ms. Shealey,

On behalf of the W Atlanta I would like to thank you for conducting the Safety and Self Defense Seminar for our talent (employees). Everyone that was present at the training spoke of the wealth of information that they gained with that amount of time. They also agreed that the practical demonstrations were very helpful in understanding what one should do if and when they are found in certain situations, from the voice techniques to the actual physical protection techniques – things that would not have been thought of without such training.

Thank you for the valuable information. It is our hope that no one finds themselves having to use these techniques, but it is comforting to know that should they need it they are equipped to deal with such situations.

Sincerely,
